Scoring : (ACM-ICPC)

1. Teams are ranked according to the most problems solved.

2. Teams who solve the same number of problems are ranked by least total time. *

3. The less total number of submissions of the solved problems

4. The shorter elapsed time of the first / second / third / … solved problem

----

*   The total time is the sum of the time consumed for each problem solved.

*   The time consumed for a solved problem is the time elapsed from the beginning of the contest to the submittal of the accepted run.

*   Additional 20 penalty minutes for every rejected run for that problem regardless of submittal time.

*   There is no time consumed for a problem that is not solved.)
