BEFORE USING GIT

- `$ git config user.name "YOUR NAME"`
- `$ git config user.email "YOUR EMAIL"`
- `$ git config http.sslVerify false`
 - for our server with a self-signed certificate

DEMO

- git add
- git branch
- git checkout
- git clone
- git commit
- git diff
- git fetch
- git init
- git log
- git merge
- git pull
- git push
- git rebase
- git remote
- git stash
- git status
